

Material Purchase Request

As a staff member, I create a Material Purchase Request whenever materials, equipment, or supplies are required to perform my assigned tasks or support departmental operations. I enter the necessary information, including the item name, quantity, specifications, estimated cost, and justification for the purchase. After reviewing the details for accuracy, I submit the request through the system. The request is then forwarded to the appropriate manager or department head for approval. Once approved, the purchasing department reviews the request and proceeds with the procurement process. This process ensures that all purchases are properly documented, authorized, and aligned with organizational requirements and budget policies.

A handwritten signature in black ink, consisting of a stylized, cursive script that is difficult to decipher but appears to be a personal name.
